anurag_y08@hotmail.com | +91 79883 08185 | India

PROFESSIONAL PROFILE

Data and BI professional with 8+ years of experience across healthcare analytics, digital identity, e-governance, customer loyalty and digital media. Skilled in Amazon Redshift and MySQL, Power BI and DAX, data validation and reconciliation, Python-based reporting automation, and stakeholder reporting. Currently a Senior Consultant with the National Health Authority.

CORE SKILLS

- **SQL & data:** Amazon Redshift, MySQL, complex SQL, extraction, transformation, reconciliation, validation
- **BI & reporting:** Power BI, DAX, KPI dashboards, scorecards, trends, analytical and MIS reporting
- **Analytics:** Root-cause analysis, anomaly detection, data cleaning, campaign analytics, performance monitoring
- **Automation:** Python-based reporting, Excel, data migration support, technical documentation

PROFESSIONAL EXPERIENCE

National Health Authority

2025 - Present

Senior Consultant

- Develop complex SQL queries on Amazon Redshift to extract and analyze large, multi-source healthcare datasets.
- Build interactive Power BI dashboards using DAX, business KPIs and advanced visualizations.
- Validate and reconcile data across sources; investigate discrepancies through root-cause analysis.
- Automate recurring reporting and provide decision-ready insights to stakeholders.
- Improved visibility of key indicators through reliable dashboards and automated reporting.

Unique Identification Authority of India (UIDAI)

2023 - 2025

Senior Analyst

- Developed MySQL queries for data extraction, transformation and reporting.
- Analyzed high-volume Aadhaar authentication and service-delivery data for trends, anomalies and performance indicators.
- Designed Power BI dashboards for authentication and service-delivery metrics.
- Presented findings to technical and non-technical stakeholders to support operational monitoring.

Easyrewardz Software Services Pvt. Ltd.

2022 - 2023

Data Analyst

- Extracted client data, cleaned campaign datasets and prepared monthly performance reports.
- Delivered tailored analytical outputs for customer loyalty and campaign-performance use cases.

Ministry of Corporate Affairs

2021 - 2022

IT Consultant

- Maintained MCA portals and databases, including routine data updates.
- Used Python for data migration, validation, cleaning and extraction to preserve data integrity.
- Prepared technical documentation, maintained servers and applied security patches.

Digismart Digital Media Pvt. Ltd.

2017 - 2021

Associate

- Analyzed digital campaign data and built Excel trackers to monitor performance.
- Optimized campaigns and developed data-led recommendations with business and technical teams.
